About Me

I Create & fix broken Web/Mobile Applications. | I can Code. | I Studied Statistics.

Work Experience

01/2026 – 04/2026

Dense Structured Grouding Annotator.

Remote

Multimango

Worked on complex, dense, and highly structured grounding tasks, consistently following detailed instructions and ensuring strict compliance with Multimango's operational standards and quality requirements. Demonstrated strong analytical thinking, precision, adaptability, and attention to detail while handling high-context workflows and maintaining accuracy across task execution.

05/2025 – 09/2025

FullStack Developer

Remote

IdealsCapital

- Maintained the company's website and developed internal tooling to improve workflow efficiency across teams.
- Integrated REST APIs and optimized backend endpoints, ensuring seamless communication between the frontend and server.
- Built scalable dashboards and admin interfaces using React, Node.js, and database-driven workflows

01/2025 – 03/2025

Frontend Developer

Remote

HNG-Internship

- Leveraged Chrome AI to auto-translate content based on the device's default language.
- Implemented reusable UI components and improved code maintainability using TypeScript, ensuring strict type-safety across the codebase.
- Worked in an agile, fast-paced development environment, contributing to sprint tasks, debugging sessions, and CI/CD-driven deployments

11/2023 – 12/2024

Web Developer

Abakaliki, NG

Knoweth

- Designed and implemented a custom authentication and authorization system (JWT/session-based), including secure login flows, token handling, and role-based access control.
- Engineered and maintained scalable REST APIs, building and load-testing endpoints to handle ~1M request scenarios using parameterized stress tests and performance monitoring.
- Reduced average API response latency by ~0.5ms through query optimization, caching strategies, and improved request handling.
- Structured database models and optimized queries to improve reliability, throughput, and long-term maintainability of core services.
- Wrote automated tests and validation for critical endpoints to ensure stability under high-load conditions and during deployments.
- Integrated and consumed backend services on the frontend with React, ensuring efficient data flow and reliable API interaction.

Education

01/2023 – Present

Statistics | BSc in Statistics

Alex-Ekwueme Federal University Ndufu-Alike, Nigeria.

Skills

Responsive Web Design	HTML/CSS
JavaScript	React
TypeScript	Tailwind
version Control	Docker
Tanstack Start	Next Js
Material UI	Node js
express js	Shopify

Projects

File-Converter [↗](#)

<https://file-converter-rho.vercel.app/>

The Most secured file converter. Transform images, documents, and media files with just a few clicks. No software installation required.

Farmculator [↗](#)

<https://farmculator.vercel.app/>

A full-stack business tool where farmers manage sales, analyze insights through charts, and access AI-generated summaries with dedicated modules for farm activities.

Where in the World? [↗](#)

<https://country-details-gray.vercel.app/>

A web platform that shows detailed information about any country, including its flag, capital, continent, population, and major geographic regions.

url_Brander [↗](#)

<https://url-shortening-cyan-ten.vercel.app/>

A URL-shortening platform that lets users generate, customize, and brand their links with ease, providing cleaner and more memorable shareable URLs.

Mind Bloom [↗](#)

<https://mind-bloom.pxxl.click/>

A gentle companion for young hearts learning to understand their feelings. Here, every emotion is valid, every thought matters, and you're never alone

IDC Portfolio [↗](#)

<https://iic-filosofi.vercel.app/> [↗](#)

A creative agency portfolio presenting their services, past work, brand partners, and curated informational sections that emphasize their design philosophy.

Citi Bank [↗](#)

<https://citi-bankkz.vercel.app/>

- Built a fully functional digital banking application capable of handling real user transactions, complete with a secure admin management system for monitoring operations, users, and financial activities.
- Recreated the UI/UX of Amalgamated Bank [↗](#) with a strong focus on responsive design, modern frontend architecture, and pixel-accurate implementation.

Blue-tickers

<https://blue-tickers.myshopify.com/>

- Built a fully functional and professionally structured ecommerce platform for Blue Tickers using Shopify, focused on seamless user experience, optimized product organization, responsive design, and high-conversion storefront functionality.
- Developed and customized a modern Shopify-based ecommerce store for Blue Tickers, ensuring smooth navigation, clean product architecture, mobile responsiveness, and a polished customer purchasing experience from discovery to checkout.

Certificates

Legacy JavaScript Algorithms and Data Structures

Mastered coding concepts, problem-solving, and optimizing code for better performance and efficiency in software development.

Front End-Development

Certified in Frontend Development through Zuri Training, mastering HTML, CSS, and JavaScript to build responsive, user-friendly web applications with hands-on project experience
